

Farm cattle. Farm it forward.

The Arvo app helps rural farmers weigh, tag, DNA-sample and track cattle. When they run sessions through Arvo, a slice comes straight back to your club, school or community group.

**No sausage sizzles. No raffle books.
Just tools rural farmers already need.**

1

SCAN

Farmers scan the QR

2

TAG

Every session tags to your community

3

FUND

Your community earns, every quarter

SCAN TO SUPPORT YOUR COMMUNITY

Point your phone camera at the code

getarvo.co.nz / farm-it-forward

START A CONVERSATION

**“Farm cattle?
Ask me about
getting arvo.”**

It takes 30 seconds to scan the code, install the app, and be linked to our community.
Every session run = income for our community.
